

*Research questions:*

- 1) How much does your food rely on pollinators? Think about the different levels of the food chain.
- 2) What are the pollinators we have here in Ontario?
- 3) What are the native plants that support pollinators in your area?
- 4) How have different pollinators been represented in art throughout history? Are there any trends?
- 5) What makes pollinators specially equipped to carry pollen?
- 6) Why are bees threatened? Are other pollinators in danger?
- 7) How do bees and *butterflies* use *the principles and physics of flight*? Are they the same or different?
- 8) Pick one thing from the list "[Helping Ontario's Pollinators: Things you can do](#)" and turn it into a poster.
